

Statement of Interest - Danny Garceau:

I attended the first SAIGE National Training Program in 2004 and immediately appreciated that there was finally an affinity group for AI/AN government employees. The people who founded SAIGE and began the building of the organization made me feel relevant and helped me grow. I wanted to give back and do for others what was done for me. I was elected and started serving on the SAIGE Board in 2007.

I hope that I have been a positive force within SAIGE, working as a board member, Warrior Society Director and as an ambassador for the organization. I feel there are still things I can contribute and wish to serve another term on the board.
