

Statement: Lori Windle

It is my opinion that SAIGE is an organization that is still as needed and valuable as it was when it began in 2002. The many lessons I have learned by being involved with SAIGE, and the people personally dedicated to the SAIGE mission, have helped increase my professionalism and broadened my understanding in many areas.

For years, SAIGE has provided me opportunities to work for positive change in different ways within the greater native community. I believe I can bring some institutional knowledge to the table and will work consistently to make this a stronger organization. I would consider it an honor to continue serving SAIGE members as a director on the Board, if you would allow me that opportunity. Thank you- Lori
